The 33 Best Vegetarian and Vegan Restaurants in America

Go green with black bean burritos, chickpea curry, portobello po'boys, and vegan pizza.

By Thrillist Food

There's never been a better time to be meatless in America. Plant-based burgers are achieving the impossible. People are figuring out how to make incredible sushi with eggplant and tofu. They're making huge strides in lab-grown meat, although the vegetarian status of that is certainly up for debate. Also, perhaps most importantly, these 33 plant-based restaurants exist as not just fantastic examples of vegan and vegetarian fare, but top restaurants, period.

PLANTA

Planta Queen

Planta's food menu is divided into five sections—sushi, chilled & raw, dumplings, small plates, and wok & noodles—featuring bold highlights like the watermelon “ahi” nigiri and coconut ceviche. The cocktail menu incorporates a variety of fruity Asian flavors as well, like the Herb Your Enthusiasm, made with thai chili-infused tequila; Lych Please, made with hibiscus-infused gin and lychee liqueur; and the Kombucha Mojito, which is exactly how it sounds.
