

## Beauty Row At Cocowalk Coconut Grove Is The Epitome Of Convenience At Its Very Finest

If you are anything near to beauty obsessed, we advise you not to walk but run to what is known as Beauty Row at **Cocowalk**, located in the iconic Coconut Grove. Whether you are looking to pamper yourself with a facial or find the skincare set of your mom's dreams (we recommend the famed **Bluemercury M-61 The Hero Kit**) to place under the Christmas tree, Cocowalk offers it all.

Now, before sharing this wealth of information, we decided that we must put Cocowalk services to the test. And boy, were we impressed! If only you were able to see our skin's glow after we experienced the signature facial at the top-notch [SkinCeuticals SkinLab Miami by Barba Skin Clinic](#)...

Next door to SkinLab are two more of the hottest beauty spots, [Glosslab](#) and 3D Brows. And for the men, if you aren't as interested in one of the above, you can make your way to The Spot Barbershop for a fresh cut. In spite of your needs, you can hit all the spots in a row, including the stunning Bluemercury shops. Convenience at its very finest!

The Signature Facial is one of the many services that the spa offers. Ranging from microneedling and cryotherapy to even medical fillers, SkinLab is the place to be, especially during the holidays. The high-tech spa rooms are designed to bring you to peak relaxation instantly. As you walk in, you'll be greeted by a team of knowledgeable estheticians and experts on SkinCeuticals products.

From there, you will head on over to your treatment room to be prepped for your service of choice. In the case of the Signature Facial, we kicked it off with a steam and two exfoliators, ideal for nourishment and cleansing. We were radiating once we got through the red LED light session, hydrating mask, and Vitamin C oil.
